### Osage Invests in \$37.5M Series C Alongside Alta Partners & SR One

Osage University Partners is proud to announce the Fund's latest investment in [Applied Genetic Technologies Corporation, Inc. \("AGTC"\)](#), a spinout from the University of Florida.

Osage University Partners, Alta Partners, and SR One were joined by existing investors Intersouth Partners, InterWest Partners, and MedImmune Ventures in the latest financing round. [Press Release](#)

### Gene Therapy Platform

AGTC ([Link](#)) seeks to correct genetic defects in a variety of ophthalmologic and systemic orphan diseases by leveraging its proprietary adenovirus manufacturing platform. The company has completed Proof of Concept studies in Leber's Congenital Amaurosis and Alpha-1 Antitrypsin Deficiency, and has an ongoing trial in Age-Related Macular Degeneration.

The current financing round aims to take two additional ophthalmology programs covering Achromatopsia and X-Linked Retinoschisis into clinical development.
